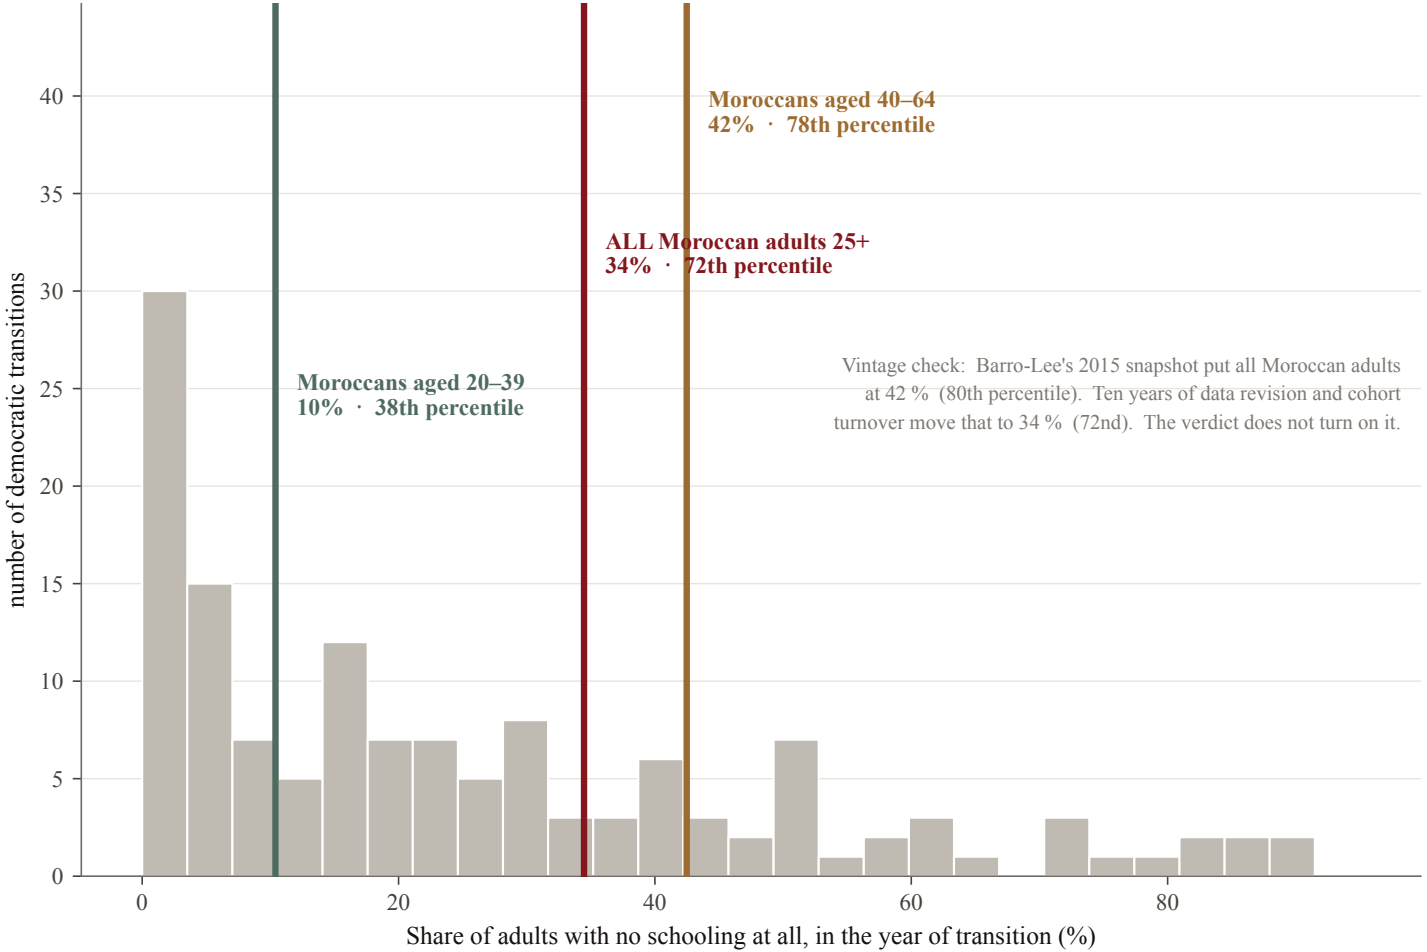

Figure 12. Morocco does not have one electorate — it has two
Moroccans today placed in the distribution of 138 democratic transitions, 1960–2025

Morocco's under-40s are better schooled than roughly six of every ten countries at the moment they democratised; its over-40s are worse schooled than four of every five. Attainment for all countries and all years on one source (Wittgenstein Centre WCDE v3.3, SSP2, ages as shown).
